Rules of minigolf play	<p>In minigolf, you have to complete 18 holes in set order with the lowest possible number of strokes. Play your first stroke at each hole from the tee position.</p> <p>Hold the putter with both hands and strike the ball with a clean hit (not pushing the ball with the putter). Each stroke counts as one point on your scorecard.</p> <p>You must complete the hole in 6 strokes. After your 6th attempt, you get an extra penalty point and move to the next hole with a total of 7 points. You must get the ball past/through the obstacles in the hole lane.</p> <p>If the ball leaves the lane after getting past the obstacle, position it exactly where it left the lane. You also get an extra penalty point. If the ball stops at the edge or near an obstacle, you can move it approximately 15 cm towards the centre of the lane with your hand. At the 18th hole, if you don't pass the obstacle, return to the tee position. After the third failed attempt, you can move the ball to after the obstacle but you get a penalty point and continue your game with the 5th stroke. If there is any delay in you playing your game, please allow other players to move ahead of you and continue their game.</p>
